Three indispensable guides for and about law students

Achieve academic and emotional success with Andrew J. McClurg’s 1L of a Ride: A Well-Traveled Professor’s Roadmap to Success in the First Year of Law School. The author, an award-winning law professor and noted humorist, provides candid, step-by-step guidance, showing rather than telling you what to do.

Help your relatives and friends support you through law school with The Companion Text to Law School: Understanding and Surviving Life with a Law Student. McClurg explores the law student psyche, sources of stress, and the effects law school can have on students’ personalities and outside relationships.

Law professors Helene and Marshall Shapiro wrote Law School Without Fear to help their son prepare for law school’s difficult emotional and practical challenges. Since then, students all over the country have field-tested this concise, plainspoken book. Topics include legal reasoning, the court system, precedent, balancing competing interests, and more.

NEW EDITION!

**START LAW SCHOOL RIGHT WITH McClurg’S 1L OF A RIDE**

Practical guidance and humor to calm your fears and quickly acclimate you to law school. Covers curriculum, class participation, exam prep, time and stress management, legal research, and more.

**See page 2 for details.**
**LEGALINES**

- Titles track the casebook, so the topics discussed and the briefs provided follow the order they are presented in the casebook
- A table of cases helps you quickly find the cases you are looking for
- The outline format reveals how all the cases relate to each other

The only series that gives you both case briefs and a review of blackletter law

Legalines provide authoritative, detailed briefs of every major case in your casebook, with clear explanations of the facts and issues, the court’s holding and reasoning, plus any significant concurrences and dissents.

Each Legaline features expert commentary that explains the significance of each case and analyzes its relationship to the other cases in the casebook.

Legalines are perfect for class preparation. A table of cases indicates where to find principal cases as well as incidental cases so you can find what you need quickly. The outline format reveals how all the cases relate to each other.

“... since the actual cases in the casebook are so long, it’s very helpful to have a short brief to look at. ... The fact that this study aid [Legalines on Corporations (Keyed to Eisenberg)] is actually tailored to the casebook my class is using is also tremendously helpful.”

Mia, New York 2L

Black Letter Outlines reveal the blackletter law

Black Letter Outlines are written by recognized national authorities to help students identify and understand the basic principles and issues of law.

Black Letter Outlines succinctly state legal rules and exceptions, and also provide citations to the major texts, so you can study individual points of law in depth.

Black Letter Outlines feature a highly detailed capsule summary – an abbreviated review of all the key concepts – and a table of contents. Use both when creating your own review outlines, or as a quick and comprehensive review before finals.

The review questions are another great way to prepare for final exams. The true/false, multiple choice, and essay questions ready you for any kind of exam situation. Plus, the answer key clearly explains why the selected answer is correct, so you are sure to understand the reasoning.

An innovative checklist approach to evaluating legal issues

The Acing Series titles feature an innovative method of content organization, utilizing a checklist format that leads you through the questions you need to ask to fully evaluate the legal problem you are trying to solve.

Many other study aids provide sample problems for students to work on, but none provide the type of systematic approach to problem solving that can be found in the Acing Series. The Acing Series titles pull together the different issues, presenting a clear guide to legal analysis that you can draw upon when writing your exams.
